ABOUT ME

I was born in 11/01/2003 at Adana and currently live in Adana. Studied Adana Final High School and at my high school days i joined lots of programs, one of them was Model United Nations. Model United Nations program was a program in which we discussed world problems, and the solution we obtained as a result was stated as a recommendation to the Real United Nations .I joined this program 2 times at Adana, 1 time at Istanbul twice as a delegate once as a manager, then at Italy/Rome i joined this program as a delegate. I graduated from high school on 2021 and started studying Computer Engineering at the University of Science and Technology. I went America Florida for 3 months Work and Travel program, worked as a Food and Beverage Ambassador. Now as a Computer Engineer i'm making Web and AI projects.
